

Exchange 2010 Hosted Services

Unified, On-Demand Business Communication

Hosted MS Exchange 2010 with SharePoint offers Enterprise Messaging and Collaboration services, without the costly hardware, license and maintenance expense. Synchronize messages, contacts, tasks and calendar information between your desktop, mobile device and Outlook Web Access — Business communication becomes a breeze.

One Plan, One Great Price

25GB Storage - Per Account / Per User

Hosted Microsoft Exchange 2010 Services allows you to avoid the expense of designing, installing and maintaining a complicated hardware and software infrastructure.

MS Exchange 2010 hosting provides secure, reliable access to your business communications from multiple points of access including desktop clients, web access, and a wide array of mobile devices — anywhere you have Internet access.

- **Huge, 25 GB Mailboxes** — Dynamically allocate storage between accounts
- **Automatically Sync** between your E-mail client, Web Access and mobile devices (Windows Mobile, Blackberry, iPhone and Android)
- **Maintain business contact information**, calendars and messaging dynamically
- **FREE Anti-SPAM and Anti-Virus** by MailChannels and Cloudmark included
- **FREE 100 MB SharePoint** for all Exchange users included (expandable up to 50GB)
- **All the features of Microsoft Exchange 2010 without the in-house hardware, license or maintenance investment**

Why Hosted Exchange?

Business E-mail and Collaboration

Microsoft SharePoint provides team members within your company the ability to collaborate on group projects directly online.

SharePoint is typically used to host web sites that access shared workspaces, information stores, documents, as well as predefined applications including wikis and blogs. Team members are able to interact with content including lists, calendars and document libraries.

Features For Business

What Exchange 2010 Offers You

- **WebReady Document Viewing** — Office documents can be accessed as e-mail attachments or displayed as HTML through public folders.
- **Outlook Web Access** takes "webmail" to the next level by providing an interface and functionality similar to the Outlook desktop client.
- **Smart Scheduling** provides full tracking of meeting times, dates, schedules, attendees/invitees and room availability.
- **Improved search capabilities** boost the speed in finding specific messages within large email stores.

Exchange 2010 Comparison

In-House Solution vs. Hosted Exchange Costs

Microsoft Exchange Hosting with SharePoint provides Enterprise-class features that are truly convenient to use. However, one of the best features that Exchange Hosting offers is the reduction in IT costs that your organization will experience.

Example Exchange Costs for a Company With 10 Employees

The following table illustrates example costs for integrating an in-house MS Exchange solution, as compared to M2Technology Exchange Hosted Services, for a company with 10 employees. The example demonstrates vendor specific hardware and software costs, and typical installation pricing. **Ongoing administration and maintenance costs are not included below, which will add to the monthly/annual expense for an In-House Exchange Solution.*

Required Hardware		Vendor Example	In-House Exchange Cost	Hosted Exchange Cost
Exchange Server		Dell PowerEdge Server	\$4,000.00	N.A.
Required Software		Vendor Example	In-House Exchange Cost	Hosted Exchange Cost
Operating System		Microsoft Small Business Server 2008	\$1,500.00	N.A.
Recommended Hardware		Vendor Examples	In-House Exchange Cost	Hosted Exchange Cost
Uninterruptible Power Supply		APC 1500 UPS	\$1,000.00	N.A.
Network Switch		Dell PowerConnect	\$200.00	N.A.
Backup Hardware		Dell Removeable Hard Disks	\$1,450.00	N.A.
Recommended Software		Vendor Examples	In-House Exchange Cost	Hosted Exchange Cost
On-site Backup		Backup Exec Small Business Edition	\$500.00	N.A.
Off-site Backup		100 GB Online Storage (12 Months)	\$1,200.00	N.A.
Anti-Virus Software		Symantic Small Business Suite	\$750.00	N.A.
Anti-Spam Software		Microsoft Forefront Protection for Exchange Server (12 months)	\$150.00	N.A.
Total Associated Costs			In-House Exchange Cost	Hosted Exchange Cost
Hardware Total:			\$6,650.00	N.A.
Software Total:			\$4,100.00	N.A.
Installation and Configuration:			\$4,500.00	N.A.
Monthly / Annual Maintenance and Administration:			Varies	N.A.
Grand Total:			\$15,250.00+	\$100.00/mo.
